

5.1.0 QMS- Quality Policy					
Revision: 03	Date: Aug 2025	Prepared by: EHS&S Manager	Approved By: General Manager	Next Review: Aug 2026	

Sika Kenya Limited is a trusted manufacturer, designer, and supplier of specialized chemicals for the building, construction, and automotive industries.

In alignment with **Sika Group's global strategy**, corporate policies, and the requirements of ISO 9001:2015, applicable statutory and regulatory obligations, our customers, and other interested parties, we commit to:

- **Consistently meet and strive to exceed customer and stakeholder requirements** by delivering innovative, reliable, and sustainable products and services.
- **Operate an effective Quality Management System** that drives continual improvement in processes, products, customer satisfaction, and stakeholder value.
- **Foster a culture of innovation** in product development, service delivery, and operational processes to enhance competitiveness and long-term resilience.
- **Equip and empower employees** through training, skills development, and awareness of customer, statutory, sustainability, and stakeholder needs.
- **Engage openly and constructively with stakeholders** including employees, suppliers, contractors, regulators, industry bodies, and the community to promote shared success.
- **Plan and act on risks and opportunities** to ensure business continuity, quality performance, and climate resilience.
- **Integrate climate change considerations** into our quality objectives, operations, and decision-making to reduce environmental impact and support Sika's global sustainability commitments.
- **Enhance our reputation** by accepting only orders we can fulfil, to agreed quality, capacity, and delivery requirements.
- **Identify and address problems promptly** using a structured, team-based approach to foster a culture of quality ownership.
- **Communicate this policy** to all persons working for or on behalf of Sika Kenya and make it available to interested parties.
